

Troubleshooting Common Issues for iReady on iPad

iReady is a powerful educational tool used by most schools in Compton Unified. Though it can be easily accessed with a web browser on PCs and Chromebooks, iPads require a slightly different setup.

Below are some troubleshooting tips if you are experiencing issues with using iReady on your District-Provided iPad

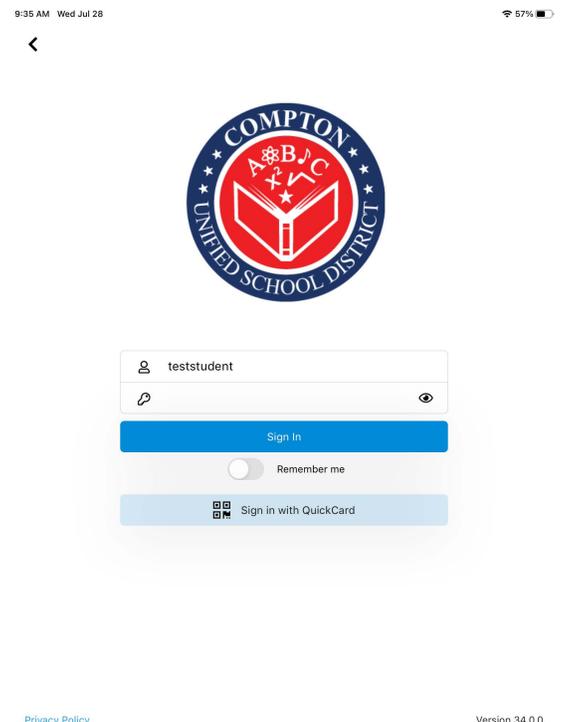

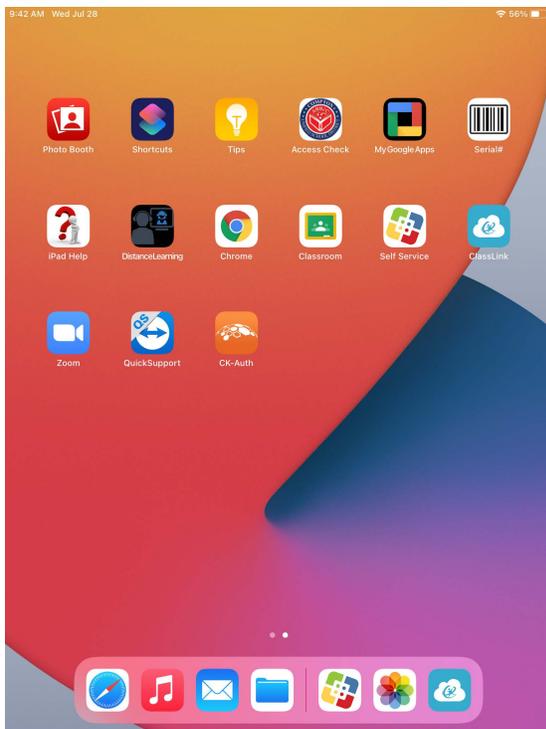

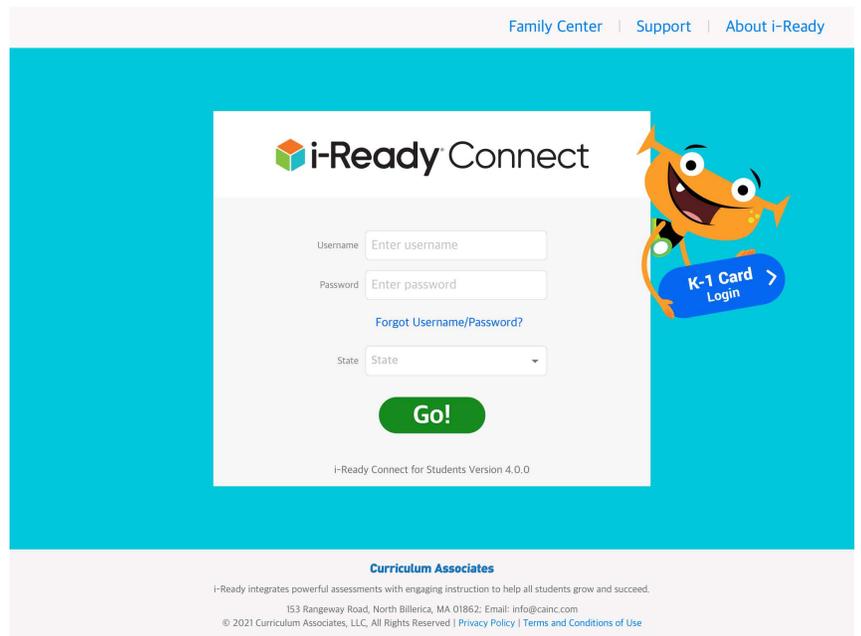

If you see this screen:

Problem:

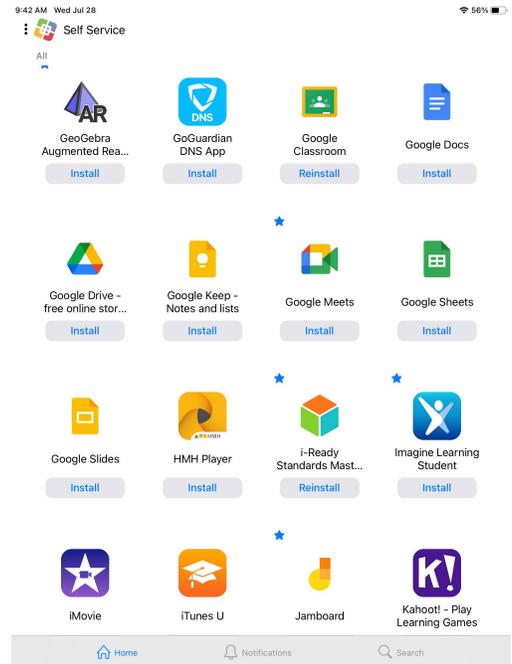

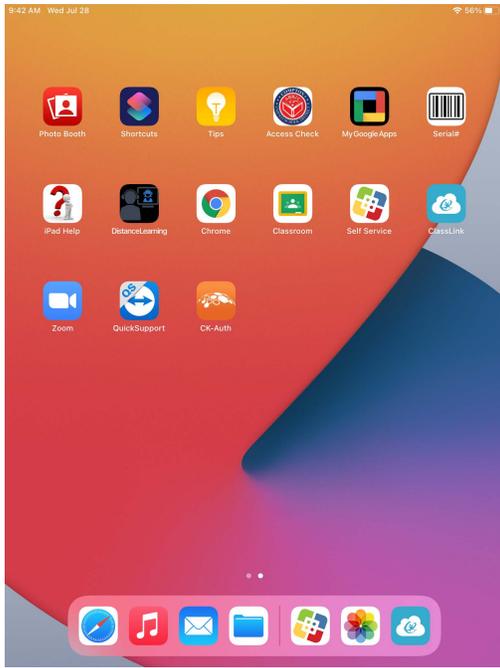

You are attempting to access iReady directly through the app on the iPad

Solution:

iReady must be accessed via the **Classlink app** in order to sign in properly
